

This is the testimony of Lea Chayes, Maude Circle in Windsor. I oppose the allowing of hunting by pistol. It will bring more people who really do not know how to shoot into areas where non-hunters will get hurt. We do not have the staff/funds to regulate this. It is just another way to let more people buy guns. It benefits very few as compared to those who do not keep guns nor hunt. Therefore, why in the world have this bill in the first place? Opposing this bill is fair and just. It is common sense.
